REPORTS AND RESOLUTIONS.

Several Constitutional Amendments Were Adopted, and Several Failed to Carry. The City of Baltimore Will Probably Receive the Next Convention-Doings of the

CLEVELAND, Nov. 22.-Yesterday's session of the Woman's Christian Temperanco union was opened with a prayer by Mrs. Katharino Lente Stevensen. Then followed the minutes of the executive committee meetings which had not already been reported to the convention. The report included the appropriation of \$4,000 for the national experimental the committee and superintendents, the organizers and lecturers of the union into a board, which will report at future conventions, the recommendation of the creation of a fund for the distribution of literature, the recommendation for the adoption of the temple committee report and a bylaw providing that the state unions shall not be bound by the policy or laws of the national, except in regard to total abstinence and the constitutional rulings of the national

A heated discussion then arose over the adoption of the temple roport, in which a number of dolegates participated. After a very exciting debate the committee's report was finally unani-

monsly adopted. Then followed the introduction of the Cleveland ladies whose efforts were instrumental in making the convention the success it was. A very pretty exercise and an eminently appropriate one followed. With a pleasant little address Mrs. Levinger of Cleveland presented to Mrs. Alice Harris, the national superintendent of music, a huge

tional superintendent of music, a huge bouquet of very beantiful roses. Mrs. Harris responded feelingly and then sang "We'll Never Say Good-by."

The report of the resolutions committee was next presented and distributed through the andience. The report dwolls at length upon the following subjects: "Young People's Societies," "Sabbath Observation," "W. T. P. A," "Equality of Citizenship," "Equality in Morals," "Aminsements," "Alcoholic Cures," "The Daily Press," "Strikes," "Work Among Colored People," "Labor Questions" and "Prohibition." The report concludes as fellows: port concludes as fellows:

"Resolved. That we render our thanks to the federated unions of Cleveland for their complete arrangements for the success of 'the convention, to the people of the city for their gracious hospitality, to the pastors of the churches, who have welcomed us to their pulpits, and to all who have contributed to the success of the convention.

In the afternoon the report of tho resolutions committee was again taken np and new resolutions were added. A long discussion of boys' brigades, and a somewhat heated one, was started by a resolution protesting against putting arms in the hands of boys. Other resolutions adopted were one deploring the Armenian fiaseo and advocating international protection, one denouncing the increase of military education in public schools, colleges and universities, and one which raised much controversy thanking the Populists for the suffrage plank in the platform in Kansas, thanking the Republicans for the same thing in Colorado, and thanking the Deniocrats of the sonth fer bringing a large area under local option laws. The resolution was adopted after much disens-

Several constitutional amendments were adopted, and several failed to carry. Mrs. Sneil of Massachnsetts introduced two amendments conferring more power on department superintendents, which were lost. An amondment that was adopted provided that biennial sessions should be held when it was deemed advisable.

The close of the session was quite impressive. Miss Willard spoke briefly, thanking the delegates for their kindness to her and telling them how strong and well sho felt.

Adjournment was moved by Mrs. Forbes of Connecticut, and the motion was carried.

"God Bo With Yon Till We Meet "Again," and the doxology were sung. and Miss Carrio Smith pronounced the benediction.

Immediately after adjournment Miss Willard was asked in what city the next convention would be held, she said: "It is not decided, but between you and me, it looks like Baltimoro.'

Says Judge Henry of All Election Frauds and Forgerles.

KANSAS CITY, Nov. 23.-The argument on the application made by W. T. Jamison for an injunction to prevent .f. C. Bremmerman from accepting a conmission as prosecuting atterney of Jackson county was heard befere Judge Henry in the circuit court yesterday. The grounds fer asking such action by the court are that Bremmerman's certificate was issned en the strength of forgery of the election returns

Judge Henry refused to graat the injunction. The proceeding, he said, was a novel one. The court was asked to decide which of the two contestants should be the plaintiff in a contest. No court had ever gone as far as that. He suggested that the plaintiffs bring mapdamns proceedings to compel the canvassers to recanvass the vote. In the course of his opinion Judge Henry said: "I will go as far as any man to prevont or punish fraud. If it were under my control I would make ballot-box stuffing and forging election returns treason against the state and punishable

He is Thought to Be One of the Five Men Captured at Mitchell Falls - The Description of the Man Farries, One of the Five. Exnetly Corresponds With That of the Notorious Cook.

KANSAS CITY, Nov. 22 .- A special to The Times from Fort Smith, Ark., says: At the United States marshal's office it is regarded as positivo that Bill Cook is under arrest in Texas. He is thought to be one of the five men captured by tho Texas rangers at Mitchell Falls. The description of the man Farries, one of the five, exactly corresponds with that of Cook. This is strengthened by the fact that the man who answers the name of Skeeter is an exact counterpart of Baldwin, alias Skeeter, of the Cook

Ever since the Correta hold-up six local detectives have been on the truth of the bandits and have been well-post ed as to their movements. A week ago they learned that Cook and a part of his band had gone toward Texas. Two of the deputies have gone to Texas to identify the men and bring them in.

Hocking and Sunday Creek Operators in Conneil.

COLUMBUS, O., Nov. 22.-A meeting was held at the Neil House Wednes day of the coal operators of the Hocking and Sunday Creek valleys. The meeting was for the purpose of effecting a combination which shall limit the output of coal in these regions and sell it. The idea is to apportion a certain amount of production for the year to

each mino. The gentlemen who are endeavoring to offect this combination say that they are driven to it by the sharp competition which has led many operators to do a proportion of their business at an actual loss. They insist that the price in a savage state. He says: to consumers will not be advanced, and as to miners, they say they will actually be bonefited. Competi tion among operators has caused them to endeavor to meet the cuts of their competitors by reducing the wages of the miners, which will not be necessary if the keenness of what is denominated as rumous competition is obviated by a mutual arrangement.

COIT TESTIFIES.

Two Witnesses Examined by the Court of Inquiry.

COLUMBUS, O., Nov. 48 -- The court of inquiry yesterday in the Coit caso heard evidence to this effect from Colonel Coit: He was not at the door when the firing occurred. Later he received telephone messages to get his men ont, as the house was to be blown np with dynamite.

Colonel Coit laid stress on the fact that the orders to fire in case the doors were broken, or a stone was thrown, or a shot fired at the men, were given by himself. His reasons for keeping the men in the house after the negro had been taken there was to avoid the possibility of stones being thrown at the men, thus necessitating firing by them and per-haps the killing of innocent persons. He also believed the withdrawal of the troops to the house would result in less excitement outside.

In answer to a question relative to the statements that he was intoxicated, Colonel Coit testified that he did not enter a saloon during the day, but on account of being cold in the evening Surgeon Gnerin sprescribed, not to exceed two table spoonsful of stimulent, and that was all the liquor he saw or drank at Washington C. H. He did not see any of his men intoxicated, nor did he see liquor in the possession of

any of them.

When the order to load was given in numbered the afternoon, the crowd numbered nearly 2,000. They were threatening the lives of Sheriff Cook and hunself. The men were given positive orders when they first went there not to enter saloons.

Colonel Coit said he was not given as sistance by the local police and that his anthority to load and fire was found in the discretion given to commanding officers in the regulations.

Major John G. Speaks of the Colum bns battalion of the Fourteenth regiment, O. N. G., was the only other witness examined. He testified that just before the shooting he addressed the crowd from a balcony over the sonth entrance, at which the shoeting was done, warning them of the danger. He stated he also called to the business men across the street to close their stores. His warnings were only partry heeded.

POLYGAMY AMONG INDIANS.

It Is a Common Practice Among the Tribes in New Mexico.

Washington, Nov. 22.—Captain Levi F. Burnet, Seventh cavalry, acting Indian agent at Mescallero, N. M., in a report to Commissioner Browning, sums up an evil among Indians of that agoncy which is found to prevail to greater or

"Another cause of much trouble on this reservation is the frequent marringes among the Indians. It often happens that a man will get tired of his wife after being married a few months and will then leave her or send her home to her relatives. This may occur several times with the same persons, so that a man may have three or four wives and the women as many husbands, all living. Sometimes the husband ill-treats his wife, and she runs away to her parents. They often 'make up' and live together again.

"Several cases have occurred during tho past year where parents have induced a man to marry their girl, aged, perhaps, not over 13 or 14 years, for the solo purpose of keeping her out of school. It usually happens that the parties soon separate, the girl returning to her parents, often against the wishes of her hasband. This causes serious quarrels. I do all I can to induce these parsons to live together when once they are married, but there is no way of compelling them to do so.

"Polygamy is practiced to some extont. Twelvo Indians have each two wives, and one has three. I advise against this on all occasions, but they do not like any person to interfere with such things. I do not see how it can be prevented, as it is an old custom."

VOLCANIC ERUPTION

Mount Ranier Awakening the State of Washington.

EARTHQUAKES. RHOCKS

Tacoma Slightly Simken bul No Serious Damage Done - The Peak Has Changed in Appearance and Is Now Shut Out From View by the Smoke-A Cause For the Disturbance.

SEATTLE, Wash., Nov. 22.-Mount Ranier is in a state of mild eruption. The appearance of the summit is entirely changed and another peak has appeared in its center. Soon after sunrise yesterday morning, the sky and air being remarkably clear, clouds of black smoke were seen curling from the southwestern part of the peak, where tho crater is located, coming at intervals of about 15 seconds.

The dome-liko top had disappeared and been replaced by a flat top, with a large crevasse extending down tho side, while in the center of its summit a now poak had appeared on the north side. The snow was nearly gone from the summit, being melted off or fallen. A mass of rock stripped of the white covering could be plainly discerned. Steam is also seen mingling with the smoke, which rose 100 feet above the summit.

Mount Ranier is a cone-shaped peak and stands slightly to the west of the stands of the stands

and stands signtly to the west of the main Cascade range, and five miles southeast of Seattle. It rises fully 9,000 feet above the range. It has three craters, of which the principal and mest perfect is the scene of the recent volcanic disturbance. This crater is half a mile across, while walls of rock 50 feet high and thousands of jets rock 50 feet high and thousands of jets of hot air and steam issue from this

The inside of the crater is filled with snow and ice in, which the smouldering volcano's steam jets have formed innnmerable caves, one of which has been penetrated by explorers to a depth of 100 feet, while they have used the steam jets for cooking. It is supposed that the walls of the crater, having been gradually weakened at the base, have fallen, leaving a peak composed of the rock on which the snowy cone, named Columbian Crest, had formed, and that the internal fires thus freed had burst forth in new vigor. The eruption became hidden by clouds soon after 3

But a very few people have ever ascended the mountain, and at this season of the year the ascension is an absolute impossibility. There is no way of making a thorough investigation of the phenomenon.

EARTHQUAKE.

Theoma Slightly Shaken, but No Serious

Damage Done. TACOMA, Nov. 22.-Last night, exactly at 6:30 o'clock, several slight shocks of earthquake were folt here. Windows were rattled throughout the city. Tho first shock was most severe, being accompanied by rumbling noises as of a distant explosion and simultaneously a sheet of flame was observed in the east-

ern heavens. Tacoma looks at the mountain from a different point of view than Seattle. The side near this city, which is covered with one of the largest glaciers in the world, seems to be covered with snow to a greater depth than usual.

Several persons here saw the smoke arising frem Monnt Ranier yosterday morning. Mrs. Lovell, an Iowa lady, visiting friends, says she saw at 7 o'clook, just before sunrise, a good sized column of smoke arising from tho mountain top. Its color was gray. She thought it roso too rapidly to be a oloud.

Professor F. C. Plnmmer, a local scientist who has made a special study of earthquake phenomena in the north-"Old Hiaton, the oldost west, says: Indian in Phyallnp reservation, said through an interproter before the Tacoma academy of scienco on Fob. 6, 1893, that he had many times seen fire and smoke coming out of Mount Ranier. This was whon he was a boy.

General John C. Fremont reported on Nov. 18, 1843, that Mount Ranier was in eruption. According to Professer Holden of the Lick observatory, a violent ernption of the mountain occurred Oot. 12, 1872, at 6 p. m. In May, 1880, volumes of smoke were observed issning from the crater. On June 17, 1884, jets of steam were observed shooting npward from the mountains at intorvals of one minute, floating eastward. Steam was continuously issuing from the crater's peak in volumes varying with the height of the barometer. "It is interesting to note," said Pro-fessor Plunmer, "that several of the

planets, including the earth, are at present in line, a fact which boars out the theories of Profossor Alexis Perry and others that such conditions are favorable to earthquakes and volcanio phe-

"THERE seems to be a unanimity on the part of the Democratic State press in condemning the secret ballot since the landslide on November 6th," says the Flemingsburg Gazette. The Gazette knows that statement is not true. Five Democratic papers have so far expressed a wish to return to the old viva voice way of voting. Tell the truth.

It took the people of Cincinnati just one week to make a complete flop, politieally. On November 6th that city gave a Republican majority of 24,000 and on November 13th, just one week later, the Democratic nominee for Judge of the Insolvency Court defeated his Republican opponent by 3,168 majority. Our Republican friends want to remember that it is two years yet before the next President will be chosen.

AT the M. and L. Tollgate polls two years ago the vote for Congressman was: Democratic......117 Republican..... 61

Total......178 This year it was: Democratic......116 Republican..... 95 Populist...... 1

Here's a Democratic loss of 1 (that probably went to the Populists), and a Republican gain of 34. We will wager our last summer's straw hat against a copper that if the editor of the Ledger, or any one else, will search for the next twelve months he will not be able to find 95 legal Republican voters in the bounds of the precinct named.

THE STAY-AT-HOMES.

Mr. Frederick C. Waite, of John Hopkins University, and formerly a sta- to the distinguished orators from Maysville the tistician of the Census Bureau, has been night previous, whose oratorical outbursts studying the returns from the late election with interesting results. "To show," says Mr. Waite, "that the Republican farmers did not vote for Cleveland in 1892, I analyzed the election returns, town by town, throughout the rural districts of New York, and discovered that the rural vote for Cleveland was even less in 1892 than in 1888 in every agricultural county in the Empire State. In Ohio it was just the same. Cleveland's vote in 1892 was less than in 1888 in the rural townships of all the agricultural counties. This year the Republicans have not cast as large a percentage of the full vote as in 1888 in a single State." The conclusion, is therefore, that the dissatisfied Republicans in 1892 and the dissatisfied Democrats this year refused to vote.

stay-at-home vote in New York has increased from 75,000 in 1888 to 185,000 in 1892 and 425,000 this year; in Pennsyl-1892, and to 400,000 this year. It has in- house very soon. There is a vacancy in this ereased in Ohio from 40,000 in 1888 to fill, but the two trustees will carry forward the in Michigan, from 20,000 in 1888 to 105,-000 in 1892, and to 240,000 in 1893 and 1894. South Carolina, when she had 50,-000 less voters than at present, cast 183,-621 votes for Hayes and Tilden. The total vote this year, however, is not much over 60,000, or about one-fourth of the full vote.

It is the stay-at-home party, Mr. phenomenal gains. "The immense Republican pluralities this year are not the cratie vote. Wisconsin has not polled statement asking a reduction to \$8 per for the Democratie candidates such a small percentage of her full vote for Democratic party has not east on an important election such a small vote for half a century. The astonishing features of the recent election are the same as those of 1892, when 1,000,000 Republican farmers stayed at home, while their Populist brethren cast 1,042,531 votes on the strength of visionary promises. Census and registration statistics disclose the fact that this year the stayat-home vote numbered about 5,100,000."

A CLOSE SHAVE.

Kentucky About Evenly Divided Between the Two Leading Parties in the Congressional Vote.

A special from Frankfort says that all of the official returns are in except those from the county of Campbell, and the figures in the Congressional election of November 6 point a moral and adorn a tale which the Democrats of Kentucky will do well to remember in the future.

A study of the figures will convince the most skeptical that as a matter of fact the Republicans earried the State by a majority of a thousand or so, though the Democrats in a strict party sense have a majority in the State at large. This would not be true, however, if one should allow them to take into account the fact that fully 4,000 Republicans voted for Keys, the Populist candidate in the First district, but as the figures are on the face of tho returns, one must hold on to a measly plurality.

The Populists and Prohibitionists have both made such a poor showing that they will have little reason for claiming party distinction in the future, their combined vote being not much over 20,000.

The Democratie vote two years ago was 174,559, and the Republican 121,858. This year the vote was: Democratic, 156,809, Republican, 154,054. This shows a Democratic loss of 17,750 and a Republican gain of 32,196 this year. The Campbell County vote is not included in these figures.

KEYS AND CEDAR HILL.

Comments of County Superintendent Blatterman on the Public Schools at the Points Named.

KEY SCHOOL HOUSE, DISTRICT NO. 58.

The trustees are W. H. Rice, James Key and Thomas Best. Key school house is situated on the south prong of the Horshoe pike. After a pleasant drive in the early part of the day, we arrived expecting to be greeted by a crowd of busily engaged in making necessary repairs and eleaning up the tobaceo quids and other nuisanees left by a crowd who had assembled to listen asiounded the natives and nearly "husted" the school house. The silvery tones still lingered upon the ambient air. The turkeys remained upon their roost, entranced and seemingly unwilling to "come off their perch." Mules and "tariff mules" stood in hunches in the fields with their heads together and seemed to be diseussing the uncertainty and the unreliability of man-for why, they thought, ean these meetings be necessary if the Democrats stand by their pledge given through the primary election? A mule might well wonder how man, his master, eau vioiale a solomu pledge.

Then the "tariff mules" seemed to be cogitating and puzzled to understand why the Senate did not pass the Wilson bill, or else let the Me-Kiuley bill stand, and why they passed that hermaphrodite tariff bill which Clevelaud was 100 honest and patrlotie to sign and which brought disaster. We jogged along until we arrived at District No. 54, (Cedar Hill), so called because there are no cedars within ten miles excepting in some person's yard. There may be a few solitary orphaned eedars. Not According to Mr. Waite's figures, the much can he said of this school excepting that the instruction by Mr. If. M. Ruggles is very satisfactory. JAMES WILLTCOMB RILEY'S charm for the cure of corns is a recipe well worth knowing, and it is perhaps interesting, too, as a bit of Hoosier folk-lore:

Prune your corn in the gray of the morn, With a blade that's shaved the dead, And barefoot go and hide it so The rain will rust it red: Dip your foot in the dew and put A print of it on the floor, And stew the fat of a brindle eat,

And say this o'er and o'er: Corny! morny; bladyi deadi Goryi soroy! rustyi red! Footsy! pulsyi floory i stewi Fatsy i eatsy i Mewi

Mew 1 Come grease my corn In the gray of the morn i Mew i mew i mew i

BAD NEWS FOR REPUBLICANS.

Life Jobs Are to Be Given to Democratic Storekeepers and Gaugers.

Washington, D. C., November 21.-Appointment Clerk Kretz, of the Treasury Department, has a force of elerks at work to-day preparing a list of all the employes of the internal revenue in the various districts of the country for the use of the Civil Servico Commission.

This list is being prepared in anticipation that President Cleveland intends oxtending the jurisdiction of civil service rules over the internal revenue service.

Mr Cleveland is undecided whether to place the entire service under the civil service at one step, or whether to begin with the gaugers, then storekeepers, and thus gradually extend the scope of his order.

In view of the recent disclosures at Pittsburg and in Baltimore it is moro than likely that he will not include the wholo service in one order, lest some of his Collectors of Internal Revenue may feel disposed to incontinently dismiss Republicans that may remain in the service, and fill their places with Democrats before the Presidential order is promulgated.

This order if issued will be the most mportant one relating to the extension of the civil service rules issued during Mr. Cleveland's administration.

It will affect between four and five thousand places, ranging in salaries from \$2,000 to \$400 per year.

THE Catlettsburg Democrat closed its fiiteenth year this week.

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live bet-ter than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect lax-ative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weak-ening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

We can well be proud of the low prices, for careful, conscientious buying, when the value of spotcash would be appreciated and conceded too, has enabled us to secure all our goods at prices which we believe no other firm in the city can
